

About the Institute

J C College of Law, Bahadurgarh, is affiliated with Maharshi Dayanand University (MDU), Rohtak. The college offers undergraduate and postgraduate programmes in Law. It provides quality education through experienced faculty and world class infrastructure. The college focuses on academic excellence, practical learning, innovation, and overall personality development. Moot court competitions, workshops, seminars, sports, and cultural activities help students enhance their knowledge, skills, and leadership qualities, preparing them for successful careers.

Objectives of the FDP

The Faculty Development Programme (FDP) aims to enhance faculty understanding of Artificial Intelligence and forensic science and their growing role in legal education, research, and the Indian justice system. It seeks to familiarize participants with modern forensic techniques and the admissibility, reliability, and evidentiary value of scientific and digital evidence in criminal trials. It will also address the legal, ethical, constitutional, and policy challenges arising from AI- driven tools, surveillance, predictive policing, privacy, and cybersecurity concerns. The FDP promotes interdisciplinary learning, collaborative research, and practical exposure to emerging legal technologies such as e-discovery, virtual courts, and digital evidence management. It further aims to strengthen teaching and research capacities of law faculty and prepare them to contribute to a modern, transparent, efficient, and accessible justice system. Outcomes of the FDP

Objectives of the FDP

The Faculty Development Programme (FDP) aims to enhance faculty understanding of Artificial Intelligence and forensic science and their growing role in legal education, research, and the Indian justice system. It seeks to familiarize participants with modern forensic techniques and the admissibility, reliability, and evidentiary value of scientific and digital evidence in criminal trials. It will also address the legal, ethical, constitutional, and policy challenges arising from AI- driven tools, surveillance, predictive policing, privacy, and cybersecurity concerns. The FDP promotes interdisciplinary learning, collaborative research, and practical exposure to emerging legal technologies such as e-discovery, virtual courts, and digital evidence management. It further aims to strengthen teaching and research capacities of law faculty and prepare them to contribute to a modern, transparent, efficient, and accessible justice system.

Outcomes of the FDP

- Enhance understanding of AI, Forensic Science, and the Indian Justice System.
- Strengthen teaching, research, and interdisciplinary learning skills.
- Develop practical knowledge of digital evidence and forensic technologies.
- Promote ethical and legal awareness of emerging technologies.
- Encourage innovation in legal education and justice delivery.
